

We should get to vote before we are forced to pay!

- Amendment 4 will give citizens in a community a “seat at the table”- a VOTE on new growth...
- How? Voters will approve or veto proposed new changes to the master growth plan at the next election...
- Why? We deserve a say before we have to pay...with even higher taxes.

With Amendment 4, Floridians will be able to vote on how our hometowns grow. Is a new development needed and affordable to our community? We say yes or no.

We're the ones who have to pay with our tax dollars to extend schools, police, fire, utilities and roads to all the new developments that politicians keep approving – even in a crashed economy!
